

CRESTLINER

THE LEADER BY INNOVATION

1993

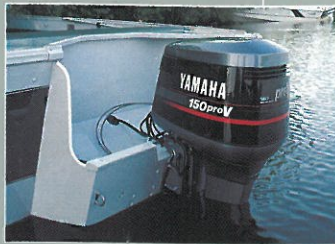

The beauty of fiberglass, the strength of aluminum and the comfort and performance of continued innovation...Crestliner. There's no other option.

If you're looking for the great lines of fiberglass, the strength of aluminum and the comfort and performance of continued innovation... Crestliner. There's no other option.

The first time you board a Crestliner, you'll know you're in a boat that's filled with innovation.

A boat that's years ahead of what other boats will be. You'll first notice it in the sleek, flowing lines that belie a strength-to-weight ratio nearly twice that of fiberglass. You'll see it, too, in the way every feature has been laid out for form and function.

Settle into your Crestliner. Take the controls and head out over the water. Feel the stability of the rivet-free, Tru-V hull design that responds to the roughest waves with a smooth-as-silk ride. You'll immediately sense you're in a boat like

Only Crestliner can offer the SST (Space Saver Transom). This patented innovation increases usable cockpit space, reduces engine noise and improves performance.

no other. That feeling is true.

Over the past several years, Crestliner has introduced and patented more innovations than any other boat manufacturer. In fact, innovation comes standard on every boat we make. Innovations like the new design of our Phantom SST. A look that's unique in an aluminum boat. A look you're not likely to see anywhere else for years. That's just one more reason we're

All Crestliner boats feature UniWeld construction; smooth, strong welds... no rough edges or rows of rivets to vibrate loose and leak.

known throughout the industry as the leader by innovation. Another is our 10/20 year warranty. It continues to be one of the industry's strongest. Our patented Bow Conversion® is still the fastest way to turn a runabout floor plan into a fishing machine. Our Pocket mini-outboard transom lets you add a kicker outboard without an add-on bracket. It gives you total operating

All Crestliners meet or exceed Coast Guard flotation regulations and we do it with form-fitting foam to deaden sound and add rigidity.

control from the comfort of your seat. Our no-pinch safety hinges make our boat seats as safe as they are comfortable.

Others have tried to copy these and the other patented features we've pioneered in years gone by. But, while they're still trying to go where we've been, we're loading even more

innovations into this newest breed of Crestliners. So when you want a boat that performs, pampers, delivers everything you

want from your time on the water, it's an easy decision to choose a Crestliner. The proof is in innovations and craftsmanship that add up to a better value while you own your boat and a bigger return when you trade up. Make this your year for a Crestliner, the leader by innovation.

It's no mistake that Crestliner leads the industry in patented innovations. Our continued support to research and development have made Crestliner a leader in aluminum boats.

THIS BIG WATER
PERFORMER TAMES
THE ROUGHEST SEAS
AND FEATURES A
WEATHER TIGHT CABIN
WITH
WALK-AROUND DECK.

The V236 Eagle SST features Crestliner's SST transom for more cockpit space and easy access to downrigger action. The walk-around deck design gives immediate access to the bow for outrigger fishing, and docking/loading or a restful day in the sun. All Eagle models feature large dual fishwells, built-in tackle trays, spacious cabins with rod storage and Porta-Potti head.

Rear built-in tackle and downrigger equipment storage is handy.

Side walkways on all Eagle models afford immediate bow access with minimal cabin space compromise.

The SST design allows for unique stern seating arrangement. Standard on SST models are bideway seats, table and built-in suntop storage.

BIG WATER
PERFORMANCE
AND ROOMINESS
IN A TRAILERABLE
CRUISER PACKED
WITH
BIG BOAT FEATURES.

Climb down into the deep cockpit of the V216 or V196 Eagle SST and see how big and roomy these rigs are. Comfortable too! Adjustable captain's chairs, built-in tackle compartments and drink holder, deluxe dash with AM/FM cassette stereo and flip-up rear table and jump seats. The fact is, you won't find another walk-around cuddy this size with the room and performance that the Eagles have to offer.

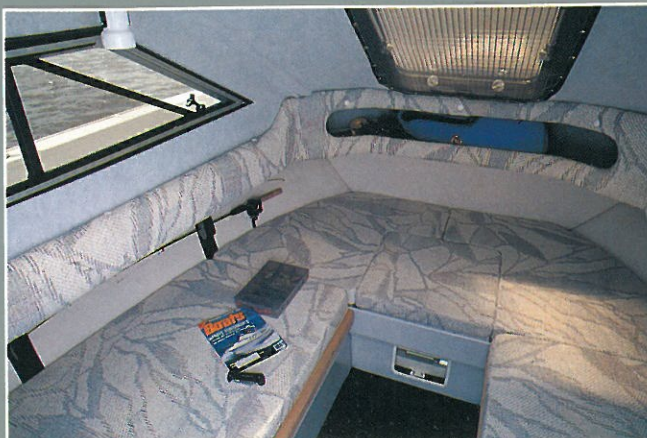

V196 EAGLE SST

V216 EAGLE SST

V 196 & V 216
EAGLE SST

Wide open cabin design that utilizes the under-deck space for built-in rod and equipment storage. The lighted cabin features screened windows, Porta-Potti head and plush cushions with color coordinated carpet.

Big fish mean big fish coolers and the Eagles have two built-in, aerated fishwells designed right behind each captain's chair for easy access.

Being fishermen ourselves, we added built-in tackle trays and storage compartments that help keep floor space uncluttered and equipment within easy reach.

THE V225 AND V245 EAGLE ARE STERN DRIVE MODELS THAT OFFER CRESTLINER'S PATENTED "POCKET" THAT'S BUILT RIGHT INTO THE TRANSOM FOR YOUR KICKER OUTBOARD.

Serious fishermen will recognize the advantages immediately. You get the power of a stern drive, and the slow troll speed of a kicker outboard built right in. The removable stern seats give you close access to downriggers and there are divided storage compartments built in to the top of the engine box for cannonballs and equipment. The sleek Tru-V UniWeld hull construction slices through waves for a smooth, safe, comfortable ride.

THE SLEEK LINES
AND PERFORMANCE
OF A RUNABOUT WITH
THE CONVERSIONS
THAT MAKE THE
PHANTOM FISH-N-SKI
A SERIOUS FISHING MACHINE.

Take a very close look at the boat on the right. It's aluminum. But you won't see rows of rivets or ribs in the aluminum. You won't see a flat squared-off deck or a stripped-down interior. Instead you'll see the Crestliner Phantom Fish-N-Ski. It's a boat that's years ahead of the competition in aluminum boat construction. It's as sleek and smooth as fiberglass, but designed with Crestliner's fishing conversions that have made Crestliner number one in aluminum boats..

FISH-N-SKI MODELS
ARE I/O PHANTOMS
WITH THE CRESTLINER
INNOVATIONS THAT
MAKE THE BEST
DUAL PURPOSE BOAT
THAT MONEY CAN BUY.

The Crestliner Fish-N-Ski models are loaded with features that make it equally fun for fishing or skiing. If you're skiing, the Phantom is a bow rider with ski storage, cooler and tow ring. But when you want to fish, the patented conversion bow flips open to a fishing platform complete with livewell, rod storage and prewired receptacle for trolling motor. Smooth, baked acrylic paint, custom dash with tilt steering, safety glass windshield...it's the best fish/ski combo on the market.

Crestliner offers a factory pre-rigged electronics package that includes a Lowrance X-20A Graph and MotorGuide foot-control bow-mounted trolling motor. Ask your dealer about this great value which is available on all Nighthawk and Backwater series boats.

The 1640 Deluxe comes standard with a bow casting platform and lockable rod storage box.

Both the 1640 Deluxe and 1640 come standard with a 96-quart aerated livewell.

Optional steering console with built-in tackle trays are available on both models.

WHILE SOME
MIGHT CLASSIFY
THE 14 AND
16 NIGHTHAWKS
AS BASIC,
WE TEND TO THINK
SOMEWHAT THE OPPOSITE.

Basic? Perhaps,
but these little beauties have some
features that any fisherman will appreciate,
a flat floor with plush carpet,
deep ProForm seats, rod storage,
baked acrylic paint, and smooth side
welded construction backed by
Crestliner's 10/20 year warranty.
Towing is easy behind small
cars and the Nighthawks run great
with small engines.

16 & 14 NIGHTHAWK

NIGHTHAWK 14

NIGHTHAWK 16

Standard rod holders keep
rods out of the way and yet
bandy.

Another Crestliner patented innovation is the
no-pinch safety binge, standard on all ProForm
seats. Crestliner eliminated all dangerous pinch
points and added netting for storage of maps
and sunglasses on every seat back.

CRESTLINER'S
MOST AFFORDABLE
FISHING BOAT IS A
FAVORITE OF RESORTS
BECAUSE OF
THEIR EXCEPTIONAL
DURABILITY.

Over the years outdoorsmen have made these tough little rigs the backbone of American boating. You can throw them on top of a car or the back of a pickup and put in at unimproved landings with no trouble. And even though the Sportsmans are the lowest priced Crestliners, they still get the same welded construction, baked acrylic paint and overall superior quality that goes into every Crestliner.

The Sportsman 14W, 16, And 17XL feature an optional flat, vinyl covered floors, with walk-through center bench seat that features flip-up storage.

THE PRO MODELS
ARE DESIGNED TO FLOAT
IN JUST INCHES
OF WATER AND
MAKE GREAT
BASS AND CRAPPIE RIGS.

The 1600 Pro and 1700 Pro are designed with the comforts and features of the big bass boats but with the ability to float in just inches of water... back in the lagoons and backwaters where the fish are. The Pro's feature Pro-form seats, bow and stern casting decks, rod storage, cooler and console steering w/fused electrical panel. Both models come pre-wired for your bow-mount trolling motor.

1600 & 1700 PRO

The 1600 Backwater (far left) comes with forward casting platform, rod holders and aerated livewell.

Plenty of storage... 2 livewells, cooler and locking rod storage on the 1700 Pro.

The 1600 Backwater features a 96-quart aerated livewell with removable baitwell.

FULLY-WELDED
CONSTRUCTION MAKE
CRESTLINER JON BOATS
A CUT ABOVE
THE COMPETITION.

From 12 to 16 feet, these tough little rigs are perfect fishing and hunting utility boats. Their light weight makes them easy to throw on top of a car or into a pickup. They run great with a small engine or even an electric trolling motor. But unlike most Jons, they are fully welded. No rivets to shake loose and leak. And because they're Crestliners, you get the same industry leading 10/20 year warranty that all Crestliners have.

Most Jon boats are built with a fairly flat entry which is fine until you navigate through waves. The larger Jons above have a modified bull with a V design and a 4 degree deadrise. It cuts through the water for a smoother ride and better tracking.

Floor surface paint has an added grit for a non-skid, sure-footed surface.

CRESTLINER
1993 THE LEADER BY
INNOVATION

Crestliner innovation in a pontoon line means everything else is history.

A new line of pontoons hit the water in 1992. They were sleek, attractive and innovative in both feature and function. But they were every inch Crestliners. The way they looked and the way they performed made other pontoons out-dated.

Whether you're looking for a cruiser for relaxing days in the sun or a pontoon built for fishing, there's an innovative new Crestliner that's just right for you. We've loaded both styles with innovations never before seen in the pontoon industry.

The sides of our pontoons are smooth, uninterrupted by structural tubing. The Hydro Tech transom's sleek, uni-tized design lets the boat smoothly slice through the water. Our custom

graphics packages feature baked enamel pontoons for a look that's light years ahead of other boats' unfinished look. In fact, every inch of exposed aluminum is protected with baked-on enamel for unsurpassed durability.

Sturdy 8 1/2 foot beams are standard. You'll discover they

deliver more stability and useable square footage. And we craft our rigs with indestructible Roto-cast furniture frames.

Custom fiberglass helms, custom marine bimini tops with storage boots and pop-up changing or privacy rooms, available with optional Porta-Potties, are just a few of the many innovations you'll find on our pontoons.

Innovations you've come to know as only available from Crestliner.

And, like the rest of our boats, this pontoon line is durable and dependable enough to carry the industry's strongest warranty. A 10/20 year warranty. Innovations like that lead to the kind of peace of mind that's standard on a Crestliner but unavailable from other manufacturers.

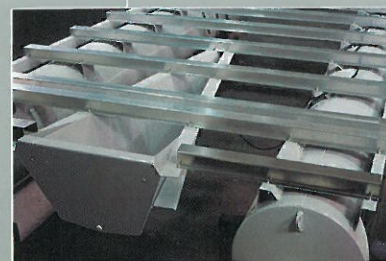

While other companies paddle along producing pontoons out of the past, we've crafted a line that's ahead of its time. But that's what you'd expect from a Crestliner. And it's one more example of why we've become known the world over as the leader by innovation.

Roto-Cast furniture bases allow for plenty of storage.

When it comes to family fun and all around practicability, it's hard to beat the comfort and roominess of a Crestliner pontoon.

Crestliner uses heavy gauge aluminum on all framing, to which is attached the Uni-tized Hydro Tech transom that slices through the water effortlessly. All wiring is enclosed in tough plastic loom... no hanging wires to pull loose.

CRESTLINER
INTRODUCED
THEIR PONTOONS
IN 1992.
THE MARKET HASN'T
BEEN THE SAME SINCE.

If cruisin' is your idea of fun, the Crestliner 2485 LSi is as plush and comfortable as any pontoon you'll see. And because it's a Crestliner, you'll see lots of innovations that are markedly absent on other pontoons. The 2485 LSi features a full 8 1/2' beam, a pop-up changing room, custom dash with stainless steel captain's wheel, courtesy lights, and bimini canvas top. The fiberglass console features a sink, insulated cooler, storage and stereo AM/FM cassette.

cassette and additional
storage.*

FOLKS CLAIM
THAT AFTER
YOU'VE FISHED FROM
THE 2085 CFI,
IT'S HARD TO GO BACK
TO A BOAT.

Great times lay ahead for the family who likes to fish or cruise. As a fishing machine, 4 ProForm fishing seats, one on each corner, give everyone room to cast. The 8½ foot beam and 20 foot length give everyone space to get up and move around. You can walk over and get bait from the aerated livewell and bait station. Or you can pick a new lure out of the built-in tackle trays. Or maybe, when fishing is a little slow, put up the bimini canvas top and stretch out on the sofa for a few Z's.

2085 CFI
PONTOON BOAT

2085 CFI
(Soon available in 21 foot version.)

The custom fiberglass console features built-in tackle trays, rod storage, courtesy lights, horn and custom dash with padded steering wheel and ProForm seat.

Large, aerated livewell has a built-in bait station with ice compartment below to keep bait cool and fresh.

CRESTLINER

THE LEADER BY INNOVATION

Crestliner Pro Staff caps and jackets and other signature clothing is available by contacting your local Crestliner dealer.

CRESTLINER DEALERS

You'll find our dealers aren't the type to be satisfied only with selling a boat. They take great pride in making sure the Crestliner you buy is the one that's ideal for you. So you'll find they ask a few more questions, deliver straighter answers than competitors. That's because our dealers are looking for more than a sale. They're out to make certain that every experience you have with your Crestliner will be as special as the boat itself.
