

CRESTLINER

FORGED WITH STRENGTH. DEFINED BY DURABILITY.

2021 MOD-V CATALOG

BUILT FOR THOSE WHO CHALLENGE THE STATUS QUO.

Fishing isn't just a sport. Hunting isn't just a hobby. And boats aren't just built to bring you from point A to point B. They're lifelong passions and our reasons for leaving land, time and time again. That's why Crestliner never settles when it comes to building our boats. And why you'll find seven decades of durability, an unwavering commitment to quality and boundary-pushing innovation in each and every rig. Because when your passion for casting and catching is above and beyond what others consider normal, you need a boat ready to go just as far.

FORGED WITH STRENGTH. DEFINED BY DURABILITY.

NO WOOD. NO CAUGHT LINES. NO MAINTENANCE.

Countless innovations seamlessly integrated in to the design. Simply put, Crestliner boats are welded to stand the test of time and built to perform.

WELDING PROCESS

Crestliner uses handcrafted, continuously welded seams on our hull for unbeatable strength, durability and a watertight fit.

SUPERIOR STRUCTURAL INTEGRITY

Under the floor of a Crestliner is a rock-solid foundation with an intricate stringer system providing a safe, smooth ride.

BROAD BEAM DESIGN

With an advanced broad beam design, Crestliners have more deck space and larger casting platforms—perfect for fishing all day.

WOOD-FREE CONSTRUCTION

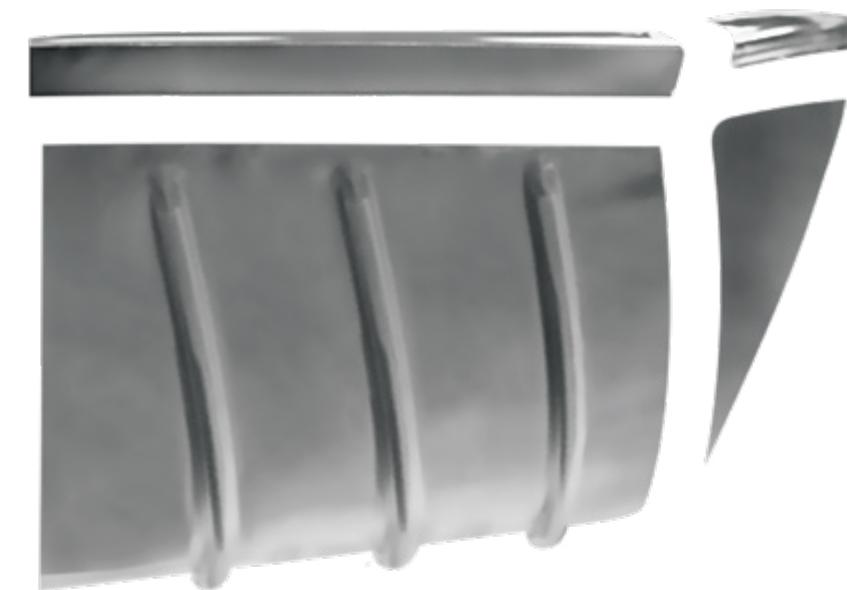

From rugged transoms to solid decking, the Crestliner lineup gives you the durability, consistency and quality of 100% aluminum construction.

Not all processes, features and statements apply to every Crestliner boat model.

1 MULTI X HULL

Crestliner Mod-V hulls utilize a multipiece design with formed-in strakes built in to the construction and extruded longitudinal ribs under the decking. This produces superior strength, stability and durability.

2 EXTRUDED FULL-LENGTH KEEL

The backbone of every Mod-V, the extruded full-length keel is constructed using an interlocking tongue-and-groove-seam construction method, providing strength and a smooth ride.

THE CRESTLINER ADVANTAGE

ENDURING QUALITY

At Crestliner, integrity and passion drive every decision we make. We take pride in our generations of engineering innovation—designing boats that last generations too.

14 CONSECUTIVE CSI AWARDS

LIMITED LIFETIME WARRANTY

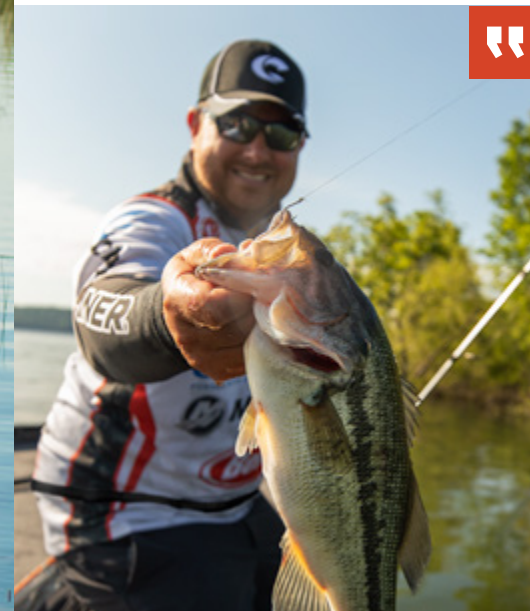

Protect every purchase with a limited lifetime warranty on mainseam welds, a three-year bow-to-stern warranty on virtually everything else and the ability to transfer warranties to future owners. (See warranty for details. Warranty differs on CR Jon boats.)

**NEW
MODEL**

BRINGING THE MX 21 TO LIFE.

The engineers equipped the MX 21 with a MercuryPro XS® 250 HP engine, giving anglers plenty of power and speed to reach their spots quicker—and making it a true tournament boat. Smith put it best: “There’s nothing like blasting off with 250.” Plus, with the MX 21’s ability to plane quickly and outperform fiberglass boats in shallow water, you won’t just get there faster, you’ll be able to reach spots others can’t for more access to better trophies.

“CRESTLINER HAS BEEN MY PLATFORM TO SUCCESS, AND THE MX 21 IS THE FUTURE OF EXCELLENCE.”

**CRESTLINER
NATIONAL PRO TEAM
MEMBER JOHN COX**

When it came to the bow casting deck, the engineers only kept one word in their heads: massive. And with MX 21’s 60 square feet of space—mission accomplished. As for storage, the amount of room is almost unbelievable. Even our pros have trouble filling it all. The rod storage was moved to the sides of the boat and the tackle storage moved to the center, eliminating hassle and allowing you to keep your focus on what matters most: catching fish.

After countless hours of planning, building and refining, the final result is a tournament-level boat filled with every professional-grade feature imaginable—and perfect for any passionate bass angler. “Crestliner has been my platform to success and the MX 21 is the future of excellence,” said Cox. From its early stages to its final construction, one thing’s for sure: There’s nothing like the MX 21.

The MX 21 is the newest member of the Crestliner family. But long before it hit the water, our engineering team and a few of our National Pro Team members—John Cox, Casey Smith and Angling Ace Trevor McKinney—joined forces to make it come to life in an incredible way.

In initial development conversations, the pro team laid out a few must-haves for the MX 21—features they knew would make the boat unlike anything else out there and the obvious choice for any serious bass angler.

It needed power, speed and endurance for long-distance tournament runs. It needed shallow-water performance like never before. And it needed tons of room for both casting and equipment. “I want the best,” said Cox. “And something I can take anywhere.”

Keeping the pro team’s wish list in mind, the team of engineers also set out to make the boat extremely accessible—one that would get the seal of approval from anyone looking to elevate their bass game. Now it was time to put ideas to aluminum.

2021
**NEW
MODEL**

MX 21

MX

ENGINEERED TO MATCH YOUR ABILITY.

Practice doesn't make perfect, it fills your livewell. Those same hours you poured into fine tuning your bass game are the same hours we poured into engineering the brand-new MX 21. It's spacious. It's functional. It's tough. It's 250 horsepower of top-level performance meeting a 21-foot pad hull structurally designed for stability and handling—a combination that puts every angling advantage at your disposal. Because you won't settle for less than professional grade and neither do we.

KEY FEATURES

MASSIVE BOW CASTING DECK

The spacious 60-square-foot casting deck features impressive storage volume with port and starboard rod lockers and a center storage locker—all complete with reinforced, lockable lids—a massive 96" beam and an advanced water-management system for full drainage.

SPACIOUS STERN DECK

The aft deck includes an impressive 45-gallon livewell to keep your catches healthy until weigh-in, compartments that can easily house four batteries and a large platform for casting.

XF/XFC

PUSHES THE LIMITS FOR A COMPETITIVE EDGE.

Maybe you're an angler working your way to the pros or maybe you're a weekend warrior who loves spending every minute of free time catching bass and crappie. Either way, our XF and XFC models don't discriminate. With a wider bow platform for maximum stability, plenty of storage for rods and gear, plus huge livewells, these high-performance fishing machines will help you catch more whether angling is your livelihood or your favorite pastime.

RETRIEVER
SC/SCHD

Pro Staff Roger Gerloff Jr. in the 2070 Retriever SCHD

TRUST IN TOUGHNESS.

Choose from a variety of tough, capable Retriever SC models to ensure your boat is perfectly tailored to your fishing and hunting style. The SCHD even comes standard with a 60-gallon livewell so you never have to leave a trophy behind.

RETRIEVER
JON DELUXE

1860 Retriever Jon Deluxe

NEVER FAILS TO GET IT DONE.

The Retriever Jon Deluxe tiller boat combines the modest conveniences of a reliable hunting and fishing rig—like a quick-access rod rack and bow storage—with the workhorse attitude of a typical jon.

*Not all processes, features and statements apply to every Crestliner boat model.

All prices and specifications subject to change. Crestliner reserves the right to discontinue models or change prices, specifications, materials, equipment, color or design at any time without notice and without incurring obligations. Some models are shown with optional features and equipment. Outboard model weights shown in this catalog reflect the approximate weight of the boat only, and do not include weights of the outboard motor or accessories installed. All boats meet or exceed United States Coast Guard regulations, applicable American Boat and Yacht Council standards and are certified by the National Marine Manufacturers Association. Our proven construction and its durability allow us to offer you one of the best warranties in the industry. Crestliner was the first to offer a limited LIFETIME hull warranty to the original owner. All main seam welds are covered. Interior support construction carries a limited 10-year warranty. Plus, you get a limited 3-year bow-to-stern warranty on virtually everything else. It gets better...Crestliner's warranty is transferable! When it's time to upgrade to a new Crestliner, you have the option to transfer the warranty to the second owner. (Limited Lifetime warranty differs for CR Jon boats.) Some restrictions apply. For complete details, a copy of our limited warranty is attached to each new boat or may be obtained from your Crestliner dealer. Many boats featured in this catalog are shown with available options. See your dealer for details. Every effort was made to ensure that this information was accurate at the time of printing. Crestliner assumes no responsibility for errors in type, in print or in photos. Please follow the rules of safe boating, be courteous to others and respect the marine environment. Special thanks to NMMA®, Onyx®, Feli Marine®, Mercury Marine®, Power-Pole®, and Cass Lake Lodge, Cass Lake, MN.
